

Web Applications Workshop 3

Semester II 2026
Sep 04, 2026
Prof. Francisco Hidrobo

HTML + CSS + JS (jQuery)

Groups

Workshop can be done in groups of up to 2 members.

Workshop Activity: Creating an Interactive Webpage using HTML, CSS, and jQuery

1. Project Structure

I. Organize your files as follows:

/Lastname1Name1_Lastname2Name2

|—— index.html

|—— style.css

|—— script.js

II. Link the latest jQuery version in your HTML file.

2. HTML (Structure the Webpage). Create a webpage with the following sections:

I. **Navigation Bar** with at least three links.

II. **Hero Section** with a heading, a short description, and a button.

III. **Image Gallery** with at least four images.

IV. **Contact Form** with fields for name, email, and a message, plus a submit button.

3. CSS (Styling and Responsiveness)

I. Apply **basic styling** for a visually appealing layout.

II. Use **CSS Flexbox or Grid** for layout structuring.

III. Implement a **hover effect** on navigation links and buttons.

IV. Ensure **responsiveness** using media queries.

4. jQuery (Interactivity & Effects)

I. **Toggle Effect:** When clicking a button in the hero section, change the background color randomly.

II. **Image Gallery:** Clicking on an image enlarges it in a popup modal.

III. **Form Validation:** Ensure the user enters valid data before submission. If the form is valid, display an alert message saying “Form submitted successfully!”

Report

- Include a short document explaining your implementation and any challenges faced.
- Provide a screenshot of the working webpage.
- Include a link repository
